Vaishnav S

Palakkad, Kerala - 679122, India

OBJECTIVE

To obtain a challenging position at N & S Solutions Pvt Ltd where I can utilize my technical knowledge and problem-solving skills to contribute to the supply, maintenance, and development of high-quality railroad equipment, while enhancing operational efficiency and supporting the company's growth in the railway infrastructure sector.

EDUCATION

- **Jyothi Engineering Collge** *2021-2025*
  APJ Abdul Kalam Technological University Thrissur, India
  Btech in Electronics And Communication
- **Kendriya Vidyalaya Ottapalam** *March 2021*
  CBSE - Senior Secondary Palakkad, India

EXPERIENCE AND INTERNSHIPS

- **Techmaghi [🌐]** *May 2023 - June 2023*
  Internship- Full Stack Developer Kochi, India
  - Collaborated with cross-functional teams to build responsive React.js applications, enhancing interactive features and raising user engagement.
  - Developed reusable React.js components following modular architecture, improving maintainability.
  - Improved website performance by optimizing React components and reducing render load times.

PROJECTS

- **An Efficient Image Denoising Using FPGA Architecture:** *March 2025*
  Tools: [Xilinx , ISE , SPartan-6 FPGA , Matlab , Verilog, ModelSim]
  - Developed Efficient FPGA Architecture for image denoising.
  - Implemented Adaptive Median Filtering algorithm on Spartan-6 FPGA for real-time noise reduction, achieving enhanced image clarity and reduced impulse noise.
  - Created UART interface for image data transfer with MATLAB.
  - Applied MATLAB to test filter accuracy and noise reduction.
- **Payment Gateway For Vending Machines:** *July 2024*
  Tools: [Flutter ,Android Studio, Visual Studio]
  - Built a Flutter-based payment gateway for IoT vending machines
  - Integrated QR scanning to identify and load machine product data
  - Designed dynamic UI for smooth product browsing and selection
  - Developed modular payment flow with UPI/API integration support

SKILLS

- **Programming Language:** Python , Java
- **Web Technologies:** HTML5, CSS3
- **Database:** SQL
- **Cloud SKills:** Azure Fundamentals
- **Tools And Platforms:** Git, GitHub, Xilinx ISE, MATLAB, Model Sim, Visual Studio
- **Development Concepts:** SDLC, Debugging, Code Troubleshooting

CERTIFICATIONS

- **Forage (Tata Group's Gen AI powered data analytics job simulation)**
- **NPTEL : Introduction To Internet Of Things**
- **NIT Calicut : Cloud Computing**
- **IETE STUDENT FORUM**

ACHIEVEMENTS

1. Selected as a Project Trainee by IIT Tirupati Navavishkar I-Hub Foundation for the NNES project (2025).
2. Served as Chairman of ECSA (Electronics and Communication Students' Association).

LINGUISTIC ABILITY

Languages: English (fluent), Hindi (Fluent), Malayalam (Fluent),Marathi(basic),Tamil(basic)
